

## J. A. O. PREUS REPUBLICAN NOMINEE FOR GOVERNOR

### ALLIED SUPREME COUNCIL MAKES WEIGHTY DECISIONS

Fix Total German Indemnity to be Paid at 120,000,000,000 Marks

Refuse Greek Offer to Police Turkey—German Armies Must Reduce to 100,000 Men

By HENRY WOOD  
(Staff Correspondent United Press.)  
Boulogne, France, June 22—The allied supreme council was expected to settle the Russian question at its session here today.

Resumption of trade relations with the Soviets was urged upon Premier Millerand by Premier Lloyd George, despite reiteration of France's policy of a refusal to deal with the Moscow government.

While official reports covering Monday's meeting were vague and did not indicate what actual decisions had been arrived at, it was generally understood that agreements had been concluded regarding the following:

Fixation of total indemnities to be exacted from Germany at 120,000,000,000 marks to be paid in thirty-seven yearly installments on a sliding scale. The minimum actual amount to be paid by Germany must not be less than 3,000,000,000 marks annually, and in the event Germany's economic life recovers rapidly, the supreme council may fix a larger sum payable on a basis to be agreed upon later.

The German armies must be immediately reduced to 100,000 men as provided by the peace treaty.

As regarding Asia Minor, it was believed the conference would reject the policy Premier Venizelos proposed that Greek troops be permitted to police Turkey. The council would permit the policy of Greek aggressiveness only by Turkey's ratification of the treaty of peace as revised.

#### No Recognition of Soviet Russia

Boulogne, France, June 22—The conference of allied premiers closed following this morning's session.

An official statement announcing that today's session had decided the allied financial experts will meet at Paris to complete the indemnity program for presentation to the supreme council July 2 when it reassembles at Brussels to definitely fix the allied program for the Spa conference with German representatives.

The statement said that the conference had approved the military experts proposal for disarmament of Germany. A decision will be reached at Brussels regarding the coal deliveries to France.

It was decided that the negotiations with the soviet trade commissioner at London would be continued with the understanding that no political recognition would be accorded to soviet Russia.

#### When Sleep Will Not Come.

Don't hate the world and kick all night just because you don't happen to go to sleep. It damages your own nervous system, and any tender regard in which your roommate may have held you. Anger eats up energy and is responsible for next morning's very unpleasant day-after feeling. The lack of sleep mattered not at all. If instead of thrashing about viciously you had curled up cozily and day-dreamed, your night might have been salvaged, all might have been well.—Exchange.

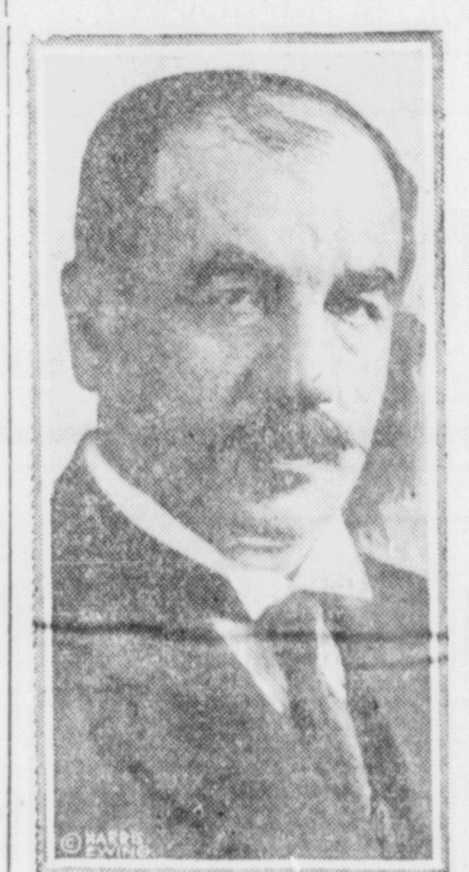

#### The Earth's Crust.

Interesting facts concerning the earth's crust were disclosed by Col. Sir Sidney Burrard recently. "Isostasy" is the particular science which deals with the structure of the earth, and Sir Sidney told how all mountains and heights standing above the sea level are compensated by deficiencies of matter underlying them below sea level, and that all oceans and surface hollows dipping below sea level are compensated by excesses of matter underlying them in the crust.

#### Grain Quickly Ripened in Norway.

It is a curious fact that grains ripen earlier in Norway than in the south of Europe, an advantage due to the long days and short nights of the summer in the north.

Envoy Sent to U. S. by New Armenian Republic

Garo Pashernadjan  
This photograph of Gara Pashernadjan, minister to the United States from the new republic of Armenia, has just been made in Washington. He was in the national capital three months before he took his place among the accredited diplomats.

### EARTHQUAKE AT LOS ANGELES, CAL.

Eight Buildings and Many Dwellings Were Damaged at Inglewood

(By United Press)

Los Angeles, Cal., June 22—Workmen were engaged in clearing away the debris of Inglewood near here, today following an earthquake that shook the surrounding country last night.

Inglewood was hit the hardest. Eight business buildings and many dwellings were damaged. Three walls of the California Edison Co. fell breaking wire connection and left the town in darkness.

Windows were broken throughout Los Angeles and the city hall today exhibited large cracks as a result of the tremor.

### GIVES NOTICE OF DEPARTURE

(By United Press)

Washington, June 22—The state department has been advised of the scheduled departure today from the United States of Fernando Calderon as high commissioner of Mexico to the United States.

### McADOO'S NAME WILL COME BEFORE THE CONVENTION

(By United Press)

Kansas City, Mo., June 22—Wm. J. McAdoo's name will be placed in nomination before the democratic national convention in San Francisco despite his personal wish. Dr. Burrs Jenkins declared today.

Jenkins, who was first intending to present McAdoo's name, said he had a long distance call from Thomas B. Love, national committee man from Texas, at Pueblo, Colorado today saying Love had urged him McAdoo's name.

Jenkins said Love declared someone would offer Meadows' name if Jenkins did not. Jenkins said he believed Love meant it.

### MINNEAPOLIS GIRL IN MURDER MYSTERY

OCCUPIED THE CENTER OF ATTENTION IN THE INQUIRY OF TIREMAN'S MURDER

(By United Press)

New York, June 22—Miss Elly Hope Anderson, of Minneapolis, stepped into the center of the stage today in inquiries into the mystery murder of Joseph Bowne Elwell, whist wizard.

District Attorney Edward Swann announced that he would like to question Miss Anderson, not that he believed she knew anything of the murder, but because "she knew someone who knew Elwell very well," he said.

Miss Anderson left New York the day that Elwell was killed. She had been studying music here.

Detectives searched her apartment and obtained several snapshots, and unopened letters that had arrived since Miss Anderson left the city.

Swann said he would not open the mail but hoped that he could question Miss Anderson and have her open the letters. Swann did not say where the letters were from or what hearing they had on the possible solution of the murder.

Miss Anderson was said to have been a friend of Victor Von Schlegel, divorced husband of Viola Kraus. Miss Kraus was with Elwell the eve of the murder, and at next table Von Schlegel and a "woman in black" were dining.

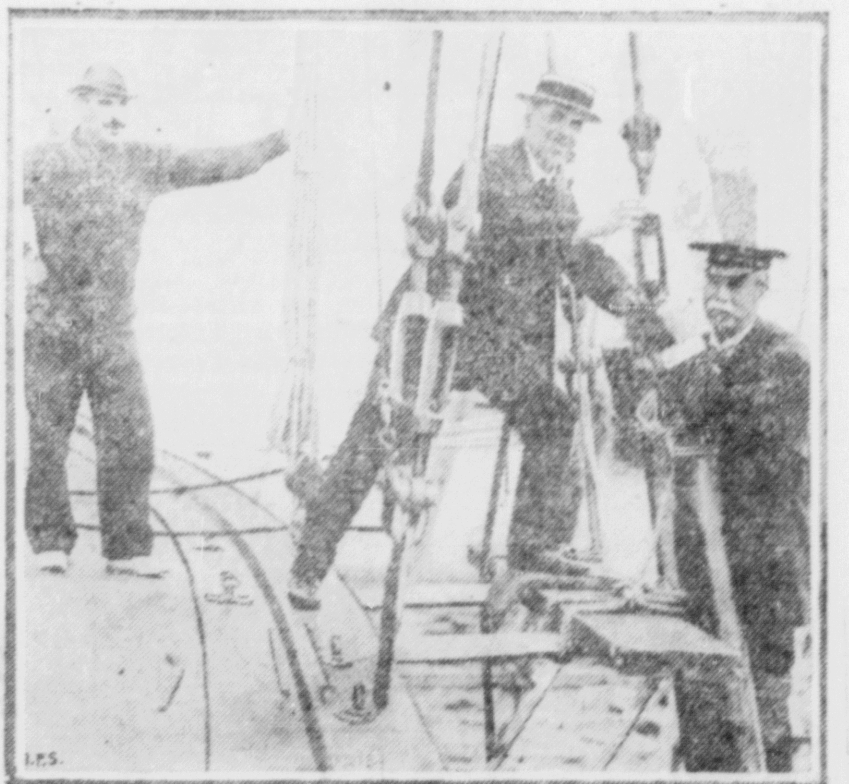

Whether the "woman in black" and Miss Anderson were the same persons could not be learned from officials.

Miss Anderson was said to be the daughter of a wealthy Minneapolis man.

#### Miss Anderson Defends Von Schlegel

Minneapolis, June 22—Miss Elly Hope Anderson, 22 years old, vocalist, a guest of Victor Von Schlegel on the night he and J. B. Elwell met on the dance floor of the Ritz Carlton roof garden, today stoutly defended Von Schlegel's innocence of any complicity in the death of the tireman.

### Sir Thomas Lipton Inspecting Shamrock IV.

Sir Thomas Lipton, persistent as ever and with his never failing smile, is back on his quest for the America's Cup. This photograph was made while the Irish sportsman was going aboard his challenger, the Shamrock IV, to inspect her soon after his arrival in America.

### PROBABLY DEFEATS SHIPSTEAD BY A SAFE PLURALITY

Mayor Hodgson, of St. Paul, Will Probably be the Democratic Nominee

Returns From the Twin Cities and Duluth are Practically Complete

(By United Press)

St. Paul, June 22—Official returns from county auditors covering 1299 precincts out of 3196 this afternoon cut down but slightly the commanding lead J. A. O. Preus had amassed over Dr. Henrik Shipstead on unofficial returns in the race for the republican nomination for governor. The Preus lead on basis of county auditors was 19,199.

The figures are: Preus 76,703; Shipstead 57,504; Frankson 14,311. Preus supporters predicted that his lead at the close when the returns are complete would be a majority of 25,000 to 40,000. They pointed to districts still unreported which they said were favorable to him.

Nonpartisan league officials backing the candidacy of Dr. Henrik Shipstead were elated at the big vote he polled. They predicted that he "yet had a chance." County precincts yet to be tabulated would cut down Preus' lead.

Republican leaders here were confident the entire ticket endorsed by the republican state convention is nominated.

L. L. Collins for Lieut. Governor is polling more votes than many others of the ticket. It was indicated he had a comfortable majority over George Mallon, nonpartisan league candidate, although Mallon had a majority in some of the counties.

Mike Holm for secretary of state apparently had nosed out Thos. Voluum and A. M. Opsahl.

Henry Rines for state treasurer was leading Charles A. Lund.

Clifford L. Hilton and Thomas Sullivan were running pretty close in some districts for attorney general with John C. Larson, Elmer C. Patterson and Stelle S. Smith trailing.

Hilton was gaining and showed a good lead on totals compiled at two o'clock.

O. P. B. Jacobson will be the republican candidate to succeed himself as railroad and warehouse commissioner. It was indicated, having established a big lead over Paul I. D. Oshby.

Homer B. Dibell apparently won the nonpartisan nomination for justice of the supreme court, although Judge Albert Johnson and George Siegel were polling a good vote. Wm. Vanderburg was trailing.

Mayor L. C. Hodgson of St. Paul, was well ahead of Robert Hargadine and Julius Thorson in the democratic race for the nomination for governor. It was conceded however that Thorson would poll heavily in the rural districts. Andrist, Indrehus, Jacques and Quane were trailing the other three candidates for the nomination for governor. B. M. Loeffler probably will win the democratic nomination for secretary of state over Frank Burmaster, although few returns were available on this contest at two o'clock this afternoon.

In many districts election judges counting republican and democratic ballots for governor, went home to sleep. Counting of ballots was still progressing this afternoon in many precincts, it was learned.

St. Paul, June 22—Jacob A. O. Preus apparently has won the republican nomination for governor on the first returns made early today. The country precincts may boost the vote for Dr. Henrik Shipstead, nonpartisan league candidate, but it is doubtful if he could overcome Preus' lead.

With one third of the returns tabulated, Preus had a lead of 25,492 over Shipstead. The vote in 1917 precincts was: Preus 74,641; Shipstead 49,149.

L. C. Hodgson apparently had won the democratic nomination for governor. He had a big lead over Robert Hargadine, his nearest competitor.

It was apparent the entire state

ticket endorsed by the republican state convention was leading early today.

The vote on other republican candidates for governor tabulated at nine o'clock this morning from a lesser number of precincts than the tabulation for Preus and Shipstead was:

Frankson 13,456; Ellsworth 2,267; Iverson 2,443; Keefe 1,509.

The Ramsey county vote of republicans for governor was: Preus 8,665; Shipstead 6,072; Frankson 2,688; Iverson 526; Ellsworth 206; Keefe 215.

Democrats for governor: Hodgson 3,210; Hargadine 873; Quane 519; Thorson 223; Indrehurst 192; Andrist 151; Jacques 99.

### THREE SINN FEINERS SHOT AT LONDONDERRY

(By United Press)

Londonderry, June 22—Three Sinn Feiners were shot, one dangerously wounded by snipers here today. Troops continued to patrol the streets but were unable to curb the snipers. Two thousand troops sent from Curragh have not yet arrived here.

#### Double Affection.

Elsie was proud and much excited over a pair of new shoes and while calling on a friend could think and talk of nothing else. To get her interested in something else, the woman at whose home she was visiting tried to take her up to an elephant made of teakwood, about a foot high, looking rather real. Baby was much afraid at first, but went nearer trembling as she went along. Finally she put her little hand on his head and, finding him harmless, put both arms around him and cried out in astonishment and joy: "He loves me—he loves my shoes!"

#### Powerful Home Influence.

The blessed influences that radiate from a home well ordered and happy are countless and far-reaching; the unselfish love there kindled and nourished shines forth as a beacon light to encourage the world's hopes and faith in humanity.—Madam Willard.

#### Music of the Shepherds.

In the stillness of the night, what more beautiful or soul-elevating than the mournful music of a flute? It was this instrument which the shepherds of Bethlehem were playing that memorable night, when the angels interrupted to announce to them the birth of the Savior.

### Painting Sign to Tell London America's Price-Cutting Wave Had Crossed Atlantic

Cable despatches told of the resigning painters putting the finishing touches on an announcement that there would be a reduction of 10 per cent on all goods in the great London department store of Selfridge & Co., founded by H. Gordon Selfridge, an American.

### HARDING WILL BE NOTIFIED JULY 22

CAMPAIGN COMMITTEE WILL BE RE-ORGANIZED TO INCLUDE BIG REPRESENTATION OF WOMEN

RAYMOND CLAPPER, (United Press Staff Correspondent) Washington, June 22—Warren G. Harding's campaign committee is expected to be named today during the conference the presidential nominee is holding with members of the national committee. Women, it is understood, will be given at least five and possibly more places on this committee. A woman vice chairman and woman assistant secretary will be named. Miss Mary Garrett Hay and Mrs. Medill McCormick are mentioned for the vice chairmanship.

"This reorganization of the committee was ordered at the Chicago convention to give women a larger opportunity for party service," National Chairman Hays said.

The national committee in conference with Harding, agreed that Harding should be given control of the campaign.

It was decided yesterday that formal notification of Harding's nomination will take place at Marion, Ohio, July 22. Groups of suffragettes were to call on Harding today to urge that he use his influence toward securing final ratification of the suffrage amendment, according to officials of the national women's party.

### WOMEN AS PEACE MAKERS BETWEEN WETS AND DRIES

AT DEMOCRATIC CONVENTION—SEE NO REASON WHY WET OR DRY PLANKS SHOULD BE ADOPTED

L. C. MARTIN  
(United Press Staff Correspondent)

San Francisco, June 22—Women will try to assume the roll of peace makers between the contending wet and dry factions of the democratic party at the national convention here. The women will urge "common sense" treatment of the wet and dry question, Mrs. George Bass, Chicago, chairman of the women's democratic national committee, said today.

The women, Mrs. Bass said, see no reason why either wet or dry planks should appear in the democratic platform. They regard the issue as settled. Their views were echoed by men delegates arriving today for the convention.

The prospect now is that what threatened to be the most troublesome question of the convention will be ironed out.

### STRIKE SITUATION PLACED BEFORE THE PRESIDENT

(United Press)

Washington, June 22—The railroad situation has been placed before President Wilson through John Barton Payne, secretary of the interstate commerce committee, it was learned today.

### CONNECTICUT TOWN QUIET AFTER RIOT

(By United Press)

Waterbury, Conn., June 22—With three companies of state guardsmen in charge, the situation here following the riot between strikers and policemen, was quiet today. Liberto Riso, who police claim fired the first shot in the riot, died of his wounds. The two policemen wounded were in a serious condition. The guard companies arriving late yesterday are patrolling the streets today.

#### About Ideal Small Boy.

There is something that always makes me feel good—that is a red-haired, freckle-faced little boy that can whip all in his gang and at the same time is not a bully.—Exchange.

## THE WEATHER

**Weather Forecast for Next 24 Hours**  
Minnesota—Fair tonight and Wednesday not much change in temperature.

June 21—Maximum 70, minimum 44. Reading in evening 60. Northeast wind. Cloudy.  
Rain 0.37 inch.  
June 22—Minimum during night 53.

## LOCAL NEWS NOTES

P. W. Donovan and family of Minneapolis are spending several weeks at Gull lake.

For spring water phone 264. Attorney G. S. Swanson went to Duluth this morning to attend to legal matters.

**SURVEYING AND MAPPING.** G. J. Holmstrom, assistant city engineer, member of American Association of Civil Engineers. Civil engineer's office. Phone 926-L. 1714

Mrs. Ira O. Davis and daughters of Blandinsville, Illinois, are guests of her brother-in-law and sister, Mr. and Mrs. Vernon L. Hitch. Mrs. Hitch met them at Minneapolis and accompanied them to Brainerd.

Mrs. Hannah A. Olson and her son Goodwin B. Olson left for Duluth to attend the social gathering and banquet of the "Solon Lager" at the Spaulding Hotel June 23, 24 and 25. They will visit on the Mesabian range before returning to Brainerd.

Mr. and Mrs. A. F. Gross and children motored from Duluth to Deerwood where they have opened their summer home on Serpent lake. The road from Duluth is heavy and the stretch between Tamarack and McGregor is almost impassable.

Miss Bertha Olson has returned from a five weeks' vacation spent visiting relatives in Butte and Great Falls, Montana; Fargo and Minot, N. D. At Great Falls she saw young Werner Hemstead who is employed by the Great Northern railway.

Ole D. Larson, Laurel street grocer, has bought the Henry Moilanen stock, 1224 Oak St., S. E. and will be located there after June 24, where he will be pleased to meet all old customers and gain new ones.

The Junior department of the First Methodist will hold their picnic at Lum park Wednesday afternoon. Automobiles will be at the church at 3 o'clock to take all members of the department. Those in northeast Brainerd will meet at Quin's store at the same hour.

Dance to the classiest, jazziest, and best orchestra in this part of the state, at Gardner's Auditorium every Tuesday and Thursday from 9 p. m. continuing as long as the crowd stays. 1617

Dispatch want ads measured well on Monday evening. There were 10 help wanted, 1 for rent, 21 for sale and 9 miscellaneous wants. Telephone your wants to the Dispatch, Northwest 74, or mail the ad or have it sent to the office. Ads are cash, sent a word each time. They solve the small worries of life, gain help for office and home, rent rooms and flats and houses, sell used articles, recover lost ones.

**A Good Trencherman.**  
The phrase originated at the time when people ate their food off trenchers. These were usually clean white wood, probably maple, and were often hollow on both sides, so that meat could be served on one side and pudding on the other.

## HOME OF DEADLY SCORPION

Region in Mexico That is Avoided by Travelers for a Most Excellent Reason.

Revolutionary bands and brigands may ride up and down Mexico, but there is one strip of territory that even the hardest and most daring of them will not brave. It is a desert country that extends from a point near the city of Durango to the borders of the state of Zacatecas, about seventy-five miles long by fifty miles wide. It is asserted that myriads of scorpions infest this region and are the most deadly of the species.

In the city of Durango, although regarded as outside of the more deadly zone, the death rate, due to scorpion stings, is high. This is especially true as to children. The alacran, as the insect is commonly called, is regarded as such a deadly pest that for many years the municipal government has paid a bounty of one centavo, equivalent to about one-half cent of American money, for each one killed and delivered to the official custodian of dead scorpions. Something like 100,000 of the scorpions are killed and bounty paid for them annually.

Killing scorpions is a regular industry with many men, women and children of Durango. One is told that some of the natives even go so far as to establish regular colonies of the poisonous insects in their homes for the purpose of breeding them for the market.

**Valuable Fat in Alligator Pear.**  
Among the fruits used for food, the alligator pear is remarkable for its large proportion of fat, which runs as high as 20 per cent, or about the same as that of common cream, states an article in Popular Mechanics Magazine. It has been found that the human system assimilates this fat very readily up to as great a quantity as four and a half ounces a day.

## "How I saved a policeman's life"

EVEN THE eggs.  
WERE TIREO that morning.  
AND THE coffee.  
DIDN'T FOOL me one bit.  
BUT WHEN after breakfast.  
MY CIGARETTE tasted awful.  
IT WAS too much.  
AND A grinch started.  
AND WALKING to work.  
I SWORE off smoking.  
AND DECIDED to fire.  
MY OFFICE boy.  
BUT JUST before I decided.  
TO KILL a policeman.  
A MAN passed me.  
SMOKING A cigarette.  
AND SAY but the smoke.  
THAT DRIFTED back.  
DID SMELL good.  
AND I followed him.  
INTO A store.  
HE THREW down two dimes.  
AND SAID "The same."  
AND SO did I.  
AND SO I'm still smoking.  
AND STILL keep that.  
OFFICE BOY and I let that.  
HANDSOME POLICEMAN live.  
AND I'm going to boost.  
THAT MAN I followed.  
FOR PRESIDENT or something.  
FOR REALLY those cigarettes.  
DO SATISFY.

JUST a whiff of that spicy aroma of fine Turkish and Domestic tobaccos will make you hungry for this "satisfy" smoke. There are blends and blends, but none like this one. Chesterfield's blend is a secret and it cannot be copied.

## \$1106.91 WAS GROSS RECEIPTS

\$1106.91 was the gross receipts of the park board as their share from the Frisco Exposition carnival which held forth in Brainerd June 14 to 19. From this amount the park board is to pay newspaper advertising, electric light, one special police and cleaning the grounds.

Wednesday was the big night for receipts. Thursday and Friday were fair. Saturday, the last night, slowed up because of the shop picnic.

### WINCHESTER CONVENTION

W. H. Gruenhagen of Gruenhagen Co. to Attend Annual Meeting at New Haven

W. H. Gruenhagen, of Gruenhagen Co., one of the most enterprising business firms of this city, and the Winchester dealer, will attend the first annual convention of the National Association of Winchester Clubs, which will be held at New Haven, Conn., June 28, 29, 30 and July 1.

At the present time there are in the neighborhood of 3000 Winchester dealers in the United States and it is expected that 2000 of them will attend. A great number of them will bring their families.

This gathering will be something new in the convention line and will mark a new era in the hardware and sporting good field. Those who attend the convention, which will be held in Woolsey Hall, of Yale University, will be amply repaid for their trip. After convention sessions there will be class room talks and tours through the plant. On these tours the dealers will be shown how the goods are made that they sell. In the class rooms merchandising problems will be solved and every effort will be made by the Winchester company to aid the Winchester dealer in solving the problems that confront him today, and by doing this they know that the Winchester store will be the leading one in the community.

The great majority of the Winchester dealers will go to New York and from there will take the boat trip to New Haven. The "Highlander" has been chartered to take the tourists to the Elm City, leaving Pier 70 East River, at the foot of 23rd street, shortly before noon on the 27th. Following the business sessions in New Haven entertainment will be provided for all. A special women's committee will look after the welfare of the fair sex. There will be moonlight rides, a clam bake, field sports, a shooting exhibition by the Topperweins, a theater party, ending with a banquet on the last night of the convention.

### Peaslee-Senn

A very pretty wedding took place on Saturday evening, June 19, at the home of Mr. and Mrs. G. Peaslee, when their daughter Gertrude Josephine, was united in marriage to William J. Senn.

The home was beautifully decorated with fern and orange blossom. A beautiful arch of the same decoration was made at one corner of the room where the pleasing ceremony took place. The bridal party approached the altar to the strains of "Lohengrin's" wedding march played by Miss Gladys Senn.

The bride was attired in a beautiful dress and carried a bouquet of bridal roses. Rev. Arthur Cartwright officiated using the Methodist ring service. After the ceremony a sumptuous meal was served, assisting at the table were Mrs. Owen Peaslee and Mrs. Ed. Plaes. Many useful presents were received.

The young couple are very well known in Brainerd. Mr. Senn is at present employed at the new N. P. depot. They will be at home to their many friends at 511 Pine St. N. E. Brainerd.

### Birthday Club

The birthday club of the Swedish Bethany church will meet Wednesday afternoon with Mrs. Emil Anderson of Rosewood street.

### Women's Catholic Foresters

St. Francis Court 393 Women's Catholic Order of Foresters, will hold a regular meeting Wednesday, June 23 at 7:30 p. m.

### Shelley-Johnstone

Miss Beatrice Emily Shelley and Gerald Wesley Johnstone were married at the parsonage of the First Congregational church, Rev. Frederick Errington officiating, Saturday, June 19. Witnesses to the pleasing ceremony were Mary E. Taylor and Elizabeth Errington. Bride and groom are of Crosby. Their many friends extend best wishes for their continued happiness and prosperity.

### Cranberries

The best-known cranberry section in the world is in the Cape Cod district of Massachusetts, with an average yield of 80 barrels an acre.

### AN "AMERICAN BEAUTY" WRAP

Of Japanese crepe is this charming evening wrap. The design is hand-painted in black, the effect being unusual, distinctive and quite stunning.

### STILL SLIM AND STRAIGHT

Tailors and One-Piece Frocks Have Changed Noticeably From Last Summer's Styles.

That Paris is herself again is the general agreement of those who have seen her fashion collections for 1920, according to Vogue. A new silhouette—the "rope a pouf," Paris calls it—is introduced by several of the houses and is featured by at least one of them. This silhouette, which adapts in charming frocks the bustle line of the eighties, is very becoming to certain small and slender types of women, who undoubtedly will feel the spell of its novelty and charm. Its novelty, however, is somewhat less in America than in Paris, for this silhouette was revived to some extent in America during the war.

Straight lines will be the rule of daytime. In tailors and one-piece frocks the lines seem to be even straighter than they were last summer. Hips are still lightly accented in some models, but this tendency is less noticeable this season than last. Many suits are simple and rather strictly tailored, while others made of taffeta and other silken materials are elaborated with embroidery and really belong in the class of afternoon costumes. In jackets there are at least two types—the short, square, free hanging type which is wrongly called "Eton"—for the Eton jacket is fitted with side seams and ends above the waist line—and the almost three-quarter length coat, which may be straight or have very bouffant skirts.

Some slight addition to the length of skirts might be specified, but, in general, street clothes remain short.

### BRAND-NEW GIFT FOR BABY

Dainty Cover, to Fit Conveniently Over Carriage or Bed; Valuable for Porch Duty.

It does seem as if everything which baby can use (or cannot use) is given him upon his arrival.

Well, the category of baby things has not a very imminent limit, for always new things are coming to light, no matter whether you did happen to conclude the last time you bought a gift for a new baby that "after all, there's nothing new to give babies."

Perhaps you will not be able to buy this, but you will be able to make it. Use either plain net (a coarse one will do just as well as a fine one) or a dotted one. A length of two yards will be just about right.

Cut the corners rounded and then bind the cover all about with narrow satin ribbon. The ribbon should be about three inches in width, so that you can fold it over and bind the wrong side of the cover with it also. Then with a bodkin run some elastic through the binding. Make the elastic just long enough to fit about a baby carriage. A large ribbon bow of the same color as the satin binding might be used at the top of it.

This cover will fit conveniently over carriage or bed. It is especially valuable for doing porch duty over the carriage, for there are no loose ends to flap in the winds thus to admit dirty Mr. Fly to the precincts of baby's dainty person.

### Chiffon for Tunic Blouse

Chiffon is effective for the tunic blouse, and many of these are shown in the smart shops. Most of them are heavily embroidered with seed beads either in an all-over pattern or in bands of trimming applied at the usual places. A blouse of this character must be exceedingly well made in order to show to its best advantage.

### Chinese Silk Trade

The American demand for silk in China has greatly increased in the last few years until at the present time about 25 per cent of the Chinese silk is sent to the United States. This is the result of American enterprise more than that of the Chinese. The Japanese silks had been in favor for a long time with the manufacturers of this country, but it was well understood that the quality of the Chinese was superior, but it was not adapted for use in this country because of the manner in which it was woven. An American manufacturer secured a moving picture reel showing the Japanese methods of manufacture and as a result the Chinamen were induced to change theirs to a system to conform with the demands of the occidental customers, and the industry has accordingly taken a great jump.

### Profitable Investment

There was once a noble college man, says Harvey's Weekly, who was noted for the profusion with which he spent, wasted and lost money in everything he did, and who kept up the practice for some years in business, after he left his Alma Mater. He disappeared for a few years, and when found again he was working on a farm. A friend asked how he was getting on, and he replied with enthusiasm:

"Splendidly! Top wave of prosperity!"

"But, man, you don't mean that you're making money on this farm?"

"Oh, no! I never expect to make any money. But I'm losing it slower than I ever did before!"

### No Tipping Here

When I first arrived in Venice I noticed large printed announcements in my hotel and in the restaurants, "Vietate la Mance," and on inquiry I found this meant "tips forbidden," that all over Venice tipping has been abolished.

ished, says a writer in the London Daily Mail.

The same rule applies more or less in other Italian cities, but in none, so far as I have seen, so completely and actually as in Venice. The notices are "absolutely" forbidden, others "rigorously" or "severely" forbidden, or "prohibited," others explain more fully that after August 1 tips are "abolished."

### Spoiled Dad's Good Intention

Army life at one time appealed to Sir Hamar Greenwood, recently named chief secretary for Ireland. He has told how at sixteen years of age he ran away from his Canadian home to join the army. His father followed, and found his young hopeful doing sentry duty with all the pride and haughtiness of a born soldier. "The old gentleman was for giving me a sound thrashing then and there," says Sir Hamar. "But I turned out the guard and had him arrested for attempting to rush the sentry."

### Nature's Busy Workers

In the great office of nature there are innumerable departments with endless work going on, and the fine flower that you behold there, gaudily attired and scented like a dandy, is by no means what it appears to be, but rather is like a laborer toiling in the sun and shower, who has to submit a clear account of his work and has no breathing space to enjoy himself in a playful frolic.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by Catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

## TO DISCUSS PAVING

The aldermen of the wards affected by the proposed pavement are asking that a meeting of those interested be held at once to discuss some matters of interest to each property owner abutting on these streets.

The aldermen of the fourth and fifth wards will meet the property owners at the Southeast Brainerd hose house Wednesday evening at 7:30.

The aldermen of the second and third wards will meet the abutting property owners at the N. E. Brainerd hose house at 7 o'clock Thursday evening.

These meetings are of importance. All property owners will find it to their interest to be there. Others interested are invited to meet with them.

## GERMS FUTURE WAR WEAPONS

Scientist Draws Dark Picture of Savagery That Will Be Part of Next Conflict.

Mobilization of the mosquito, the house-fly, the louse and various other disease-carrying pests for the dissemination of deadly germs in enemy territory is a possibility of "the next war" pictured by Prof. Maxwell Lefroy, a London scientist.

"I foresee the mosquito from Brazil starting yellow fever in new lands, the house-fly, duly infested with cholera, dysentery or enteric and the typhus-laden louse doing their deadly work much more effectively than spies poisoning wells," said Professor Lefroy in a recent address.

"This would be part of the work of a war office of entomologists—the working out of strategic plans for the distribution of these pests by airplane. It seems that the world is intent upon furnishing an airplane service for these pests, many of which are now held somewhat in check by natural enemies in their native climes. This will give them just the means of transit they have required. It will be a peace-time danger as well as one that could be used very offensively in war. The danger from these 'winged battalions of death' is more serious than one dare estimate."

## Airplane Has Its Limits.

The officials of the United States department of agriculture have been in receipt of many suggestions relative to extinguishing forest fires with the use of gas bombs dropped from airplanes that it has been found necessary to issue a statement for the purpose of explaining that the scheme is not feasible. For the purpose of overcoming a detachment of men, a mixture of one part of virulent poison to 1,000,000 of air would be entirely sufficient to accomplish the purpose, but one of 750 parts to the thousand would not be powerful enough to quench a conflagration. Another thing to be taken into consideration is the difficulty of dropping the bombs with the necessary precision. The art of striking a target with any degree of accuracy has not been developed at this time, and there is no prospect that it will be sufficiently perfected to the point of becoming available for the purpose of fighting fires.

## To Destroy Grasshoppers.

Poisoned bran bait is a simple, reliable and cheap method of destroying grasshoppers. The formula is: Wheat bran, 25 pounds; Paris green, one pound, or white arsenic, one pound; lemons or oranges, six finely chopped fruits; low-grade molasses, two quarts. The mixture is scattered over the fields. Beneficial results have been obtained from the poison, but in whatever process is followed, communication must unite, for if one farm is rid of the insects, a new invasion will come in from the adjoining farm. An interesting incident of all poison baits is that lemon juice is added, thus it seems that it is necessary to hand the hopper a lemon in order to get rid of him.

## Precursor of the Piano.

The harpsichord, comparatively modern, represented an attempt to construct a horizontal harp that was played upon by means of oblong wooden keys called "jacks." Our piano is a modified and improved harpsichord, invented in 1711 by Bartolomeo Cristoforo di Padua.

## Home Town Helps

## BEAUTIFY THE FARM YARD

No Reason Why Grounds Surrounding House Should Not Be Made and Kept Attractive.

(Prepared by the United States Department of Agriculture.)

For over a decade the home demonstration agents in the South have been teaching farm women easier and better methods of doing their housework, caring for their families, and conducting home industries. During the past years, they have been teaching, in addition, the beautifying of the farm yard.

The country woman, like every other normal woman, is hungry for beauty, but in the past she has had less of it in her life than her city sister. Too many farm homes inside and out are

In Need of Beautification.

unattractive, yet beauty in a country yard costs little except effort, for the finest effects can be obtained by the use of native trees, shrubs and vines. A demand for information on the beautifying of the home by the Southern women in the rural districts is the reason that it has been taken up definitely as a part of the extension work in the South. The response and results in every state have been more than looked for.

In Donley county, Texas, an impromptu meeting of this kind recently brought out 38 country women, all intensely anxious to learn what the home demonstration agent could teach them about making the surroundings of their homes more attractive.

The demonstration was given at the home of one of the women who had recently built a new house and who wanted to have the setting for it right.

After Proper Treatment.

The importance of planting and arranging perennial vines as a background on the porches and fences was one point stressed by the extension worker. Instruction was also given in arranging shrubbery so the low-growing kind would be in front of the taller. Where flowering plants were to be used the necessity of planting colors which would harmonize well was emphasized. In fact, an intensive course in landscape gardening on a small scale was given to the women.

## Plant Nut Trees.

Suppose that we were to supplant willows and poplars along the roadside with trees which would give us bushels of product worth many dollars per bushel when the leaves were swept up in the fall. It is no more difficult to set out a black walnut than it is to set out a willow or poplar. The first cost is no greater if we set out seedling trees, although, if particularly good kinds of grafted black walnut are set out, the first cost is something more—yet negligible in view of the return. Investment in a nut tree differs from an investment in an industrial enterprise, for the reason that the plant of the industrial enterprise is decreasing in value from wear and tear the moment after it is completed. A nut tree, on the other hand, is increasing in value from the moment it is set out.

## Town Planning.

During the war the housing developments undertaken by the government in the United States, as in England, were very frequently based upon a complete physical plan. This was possible because many of the communities were created in places where no previous community had existed. The field was a virgin one, and the opportunity was not lost. This aspect of the work was always referred to as town planning, the name adopted and used in England. Thus, at the present time in the United States one is apt to find both names used, and it is perhaps well to remember that generally they mean the same thing; but it is also true that their meaning is as yet very far from having acquired a concrete definition.

## Dispatch Want Ads Pay

## The Character of a Newspaper

is largely determined by the

## Quality of the Advertising It Carries

—for the simple reason that good advertisers do not find it profitable to buy space in any but the highest type of newspapers.

The newspaper which carries the best class of advertising has to have a good circulation.

And a good circulation is only to be obtained by giving subscribers a first-class news service in a clean, impartial way, irrespective of race, creed or politics.

If you will carefully study the advertising matter in any issue of the

## St. Paul Pioneer Press

(Morning and Sunday)

and the

## St. Paul Dispatch

(Evening)

you will find the advertisers therein are all making their appeal to a very large class of discriminating people—that they have chosen the ST. PAUL PIONEER PRESS and DISPATCH because it actually reaches this large class of discriminating readers—and because it contains matter of such interest that the reader's attention is held from cover to cover.

MERCHANTS throughout the Northwest find the advertising matter useful in comparing values and styles.

HOUSEKEEPERS carefully watch the market prices and bargain offers in the store advertising.

FARMERS AND PRODUCE MEN are interested in the trend of supply and demand as indicated by the advertisements.

AUTOMOBILE DEALERS get useful tips on exchange and sales from the ads.

BANKERS are kept in touch with the latest developments by keeping an eye on the financial advertising.

REAL ESTATE DEALERS do a large percentage of their business by making connections with advertisers.

In short, the advertisements published by a first-class newspaper are a source of information, education and inspiration to every individual who reads them.

If you are living in the city, see your newsdealer and arrange with him for a regular service of these leading newspapers of the Northwest or mail this Inquiry Coupon to the Dispatch Printing Co.

If you are living in the country, send in the attached coupon and we will advise you the daily issues which will give you the best possible service and quote rates.

Mail this coupon today. In these stirring times you can't afford to miss a single edition.

## INQUIRY COUPON

## EARNEST FIGHT ON CHILD LABOR

STAY-IN-SCHOOL CAMPAIGNS ARE  
BEING CARRIED ON THIS SUM-  
MER IN TWENTY STATES.

### ANOTHER DRIVE IN THE FALL

Having Excellent Effect on the Em-  
ployment of Children in Agricultural  
Work—Federal Government Espe-  
cially Active in Promoting Education.  
By JAMES P. HORNADAY.

Washington.—To abolish child labor  
not merely by prohibiting employment  
but by providing suitable education is  
the aim of the stay-in-school campaign  
now being carried on or completed in  
20 states in co-operation with the chil-  
dren's bureau of the department of  
labor. The campaign is to be followed  
in the fall by a back-to-school drive  
in order to round up the children who  
fail to report at the opening of school.  
Since the influence of vacation work  
in leading to permanent withdrawal  
from school has been strikingly shown.

An encouraging feature of the cam-  
paign is that six of the states taking  
part in it are among the ten in which  
more than 20 per cent of all the chil-  
dren between ten and fifteen years of  
age are regularly engaged in agricul-  
tural work. Rural child labor, which  
involves three-fourths of all the child  
workers in the country, is the most  
difficult form of child exploitation to  
reach. It is subject to no legal regula-  
tion except through school attend-  
ance laws, and these are, as a rule,  
inadequate and poorly enforced. In  
three of the six states mentioned, the  
percentage of illiterates over ten years  
of age represents more than one-fifth  
of the total population. The other  
three states have illiteracy rates con-  
siderably higher than the country as  
a whole.

#### Work Carried on in Many Ways.

The campaign is being carried on in  
accordance with local needs and re-  
sources. Moving pictures and slides  
are being utilized in some places to  
show the harmful effects of too early  
work and the advantages of schooling.  
Posters and leaflets urging children to  
make wider use of the vocational  
guidance and placement work are be-  
ing distributed. Leaders in vocational  
guidance and placement work are giv-  
ing talks to seventh and eighth-grade  
pupils on the advantages which school  
training gives when the boy or girl  
enters the working world.

The 20 states carrying on campaigns  
are Alabama, Arkansas, California,  
Connecticut, Delaware, Illinois, Iowa,  
Louisiana, Maine, Massachusetts, Min-  
nesota, Mississippi, Montana, Nevada,  
New Jersey, North Dakota, Rhode Is-  
land, Tennessee, Texas and Wisconsin.

The federal government was never  
before quite so active as it is now in  
promoting education along several  
lines. While the children's bureau is  
undertaking to see to it that the chil-  
dren of the land are, as far as possible,  
kept in school, the naturalization bu-  
reau of the department of labor is  
busy with the work of teaching Ameri-  
canism to aliens.

#### Schools in Americanism.

Under the direction of Raymond F.  
Crist, schools for aliens were conduct-  
ed during the season now just closing,  
from one end of the country to the  
other. In almost every city and in  
many of the smaller towns classes in  
Americanism are being graduated these  
June days. Persons who are acquaint-  
ed with what Mr. Crist has done along  
this line say that no government ac-  
tivity is likely to produce more de-  
sirable results.

There is still an immense amount of  
work to be done in connection with  
teaching Americanism to the men and  
women of foreign birth. It is pretty  
generally understood that it will not  
be long until the stream of incoming  
aliens will begin to increase and this  
will mean more work for the persons  
who are engaged in this educational  
activity. To a large extent the teach-  
ing of the alien classes has been done  
by volunteers.

The third educational activity in  
which the federal government is  
specially interested has to do with  
reducing the percentage of illiteracy  
among native Americans. The inter-  
ior department is getting ready to  
undertake work along this line.

A fourth educational activity which  
should not go without mention is the  
establishment of vocational schools in  
both the army and the navy. In none  
of these activities by the federal govern-  
ment is there any attempt to sup-  
plant the state in matters of educa-  
tion. In everything that is being done  
there is the heartiest co-operation be-  
tween the federal government and the  
various states.

#### Worshipful Company of Goldsmiths.

Working in gold and silver was car-  
ried on even in the times of the an-  
cient Britons, and in Saxon days,  
Rishop Wilfred built a stone church  
at Ripon in 628, the columns and por-  
tion of which were adorned with gold,  
silver and purple, while in the Ash-  
molean museum is a piece of gold  
work, the inscription upon which  
states that it was made by the com-  
mand of Alfred the Great. And, as  
was always the case, those craftsmen  
must have banded together from very  
early days, long before 1180, when the  
guild of the Goldsmiths was fined for  
being carried on without the king's  
special license.

## HOME TOWN HELPS

### NUT TREES FOR ROADWAYS

Walnuts Bring Eight Dollars a Bushel,  
Says Writer in Making Sug-  
gestions for Planting.

Maples, poplars, elms, willows and  
the alantus are seen along roadways  
and in parks wherever public ambition  
for shade has been sufficient in de-  
gree to induce authorities to put in  
trees of one sort or another. For the  
most part our northern highways are  
unshaded except by such trees as may  
accidentally spring up by the roadside,  
and, after competition with various  
enemies, finally reach above the  
fences, writes Robert T. Morris, a  
member of the American Forestry as-  
sociation of Washington, in "Nut Trees for  
Roads and Parks." Trees for city  
roads and parks, particularly in the  
larger cities, are often enough selected  
by some nurseryman favored by the  
political powers that be, and the nur-  
seryman furnishes what he wishes to  
supply the uncritical purchaser. The  
time for this sort of procedure is  
passing, and people are beginning to  
awaken on the subject.

Progress in civilization along this  
line will mean that we are gradually  
to dispose of the kind of trees that  
furnish nothing but bunches of leaves  
which in due season litter the ground,  
and when swept up contain nothing  
more than incidental trash. Now, if

these trees were to give place to nut  
trees and fruit trees, there would be  
very much besides leaves to be swept  
up in the autumn. One of my friends  
in Illinois told me that in 1918 he re-  
ceived \$8 per bushel for his black wal-  
nuts of a particularly good kind, and  
that some of the trees bore as many  
as 14 bushels to the tree.

### BESTOW THOUGHT ON GARDEN

Promiscuous Planting of Flowers,  
Trees, and Shrubs Is Not to Be  
Recommended.

The main planting of any country  
place should be of trees and shrubs.  
Flowers should be used as decorations.  
They may be thrown in freely about  
the borders of the place; not in beds  
in the center of the lawn. They show  
off better when seen against a back-  
ground; this background may be a  
fence, a building, a rock or a fence.

Where to plant flowers is really  
more important than what to plant.  
In front of bushes, in the corner by  
the steps, against the foundation of  
the residence or hothouse, along a  
fence or walk—these are the places  
for flowers. A single petunia plant  
against a background of foliage is  
worth a dozen similar plants in the  
center of the lawn. Too many flowers  
make a place overgrown. Too much  
planting may spoil the effect of a good  
building. The decoration of a yard  
as of a house, should be dignified.

The open-centered yard may be a  
picture, the promiscuously-planted  
yard may be a nursery or a forest. A  
little color scattered in here and there  
puts the finish to the picture. A dash  
of color gives spirit and character to  
the brook or pond, to the ledge of  
rocks, to the old stump or to the  
pile of rubbish.

## GOOD IN POVERTY

Mr. Gosington Does a Little  
Philosophizing.

Sees Much Benefit in the Necessity  
to Work and Also in the Worry  
Which Falls to the Lot of  
Majority of Mankind.

"Glimmerby, my friend Glimmerby,"  
said Mr. Gosington, "propounds the  
theory that both poverty and worry  
are conducive to longevity; and I  
think there is something in that. I  
am not so sure about the worry, and  
yet I think even that may be true. I  
can see, for instance, that if a man  
worried hard enough he would keep  
himself lean and so escape the ills and  
inconveniences attendant upon obesi-  
ty; but that poverty tends to lengthen  
life I have no doubt whatever.

"The man who is poor, as we most  
of us are, has to work for a living.  
Surely it is in work that we are most  
blessed; and if we have work to do in  
which we are interested, that appeals  
to us, then are we fortunate indeed;  
we find a pleasure in labor and a joy  
in accomplishment; and it makes us  
smile to think how in such work we  
forget our worries entirely.

"So we don't really need to consid-  
er whether worry is a life-prolonger  
or not; all we want to lengthen our  
days is to be poor, poor enough so  
that we have to work and keep plug-  
ging; but I do wonder that Glimmerby  
did not mention along with poverty  
and worry, as among the things that  
might tend to prolong life, our phys-  
ical ailments.

"Some years ago a friend of mine  
began to lose weight and he kept on

in that way until he had lost 25  
pounds. Then he consulted a doctor.  
It was something that could be check-  
ed, controlled and perhaps entirely  
cured if the patient would follow faith-  
fully the prescribed treatment; and  
then he was told that the general ben-  
efits he would derive from the treat-  
ment were such that his life might be  
prolonged to a greater limit than it  
would have reached if he had never  
had this ailment at all.

"I might add that this friend has  
now regained several of his lost  
pounds, he is feeling very chipper and  
cheerful and he fully expects to live to  
be a very old man.

"The fact is that many things that  
we may look at, when they come upon  
us, as drawbacks are in reality bless-  
ings in disguise."

#### Australians Well Off.

In no part of the world is there a  
population apparently better fed and  
better provided with the ordinary  
necessaries of life than in Australia  
and New Zealand. There is an ab-  
sence of indications of poverty, and in  
the cities slums are rare. On the  
streets there is a healthy, bustling  
population of a type more like the  
dwellers in the cities of the middle  
West than those of London or Liver-  
pool. The visitor recognizes the self-  
reliant spirit of a people detached from  
the rest of the world who have their  
own problems to solve, and are pe-  
culiarly ready to accept innovations.

There is a great fondness for sports,  
football, tennis, surf bathing, which is  
possible all the year round in portions  
of Australia, and, most of all, for  
horse racing, in connection with which  
there is a great amount of gambling,  
which the state sanctions by taxing a  
certain percentage of the sales in the  
pool rooms.—Exchange.
